

Voices of Double Up Food Bucks

Double Up Food Bucks increases access to fresh fruits and vegetables for food-insecure Iowans. The healthy food incentive program enables SNAP customers to stretch their grocery budgets and eat healthier food.

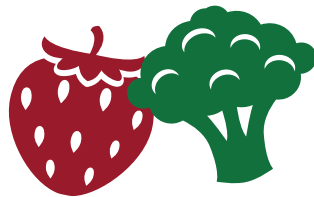

Here's what customers are saying:

I am living with liver disease. Aside from my medications, eating right - including lots of fruit and vegetables - are recommended to me by my transplant team. Having the Double Up Food Bucks program allows me to buy more fresh produce instead of canned.

Tracey Miller
Grimes, Iowa

Double Up Food Bucks has been so helpful in stretching our food budget. The kids have been able to try new fruits and veggies along with their favorites.

– Shopper in Mason City

Originally my favorite thing about Double Up Food Bucks was saving money, but now it is that I am eating healthier.

– Shopper in Scott County
